

how to make an **origami** **freelancer hummingbird**

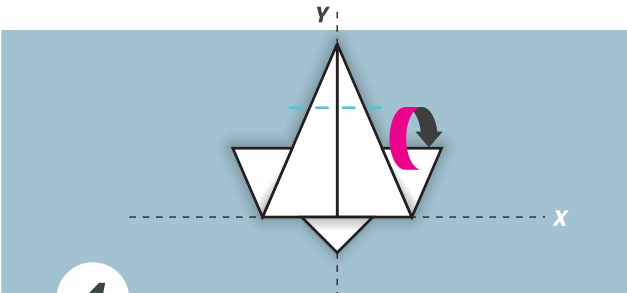

1
make the dotted blue line symmetrical

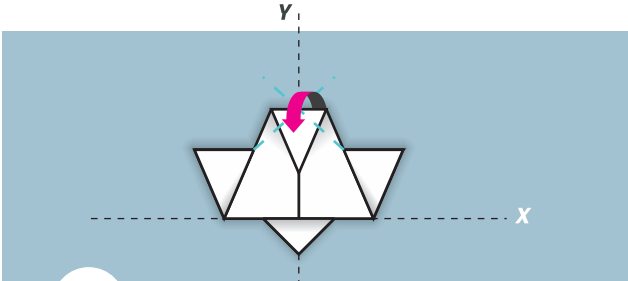

2
fold the blue line along the x axis

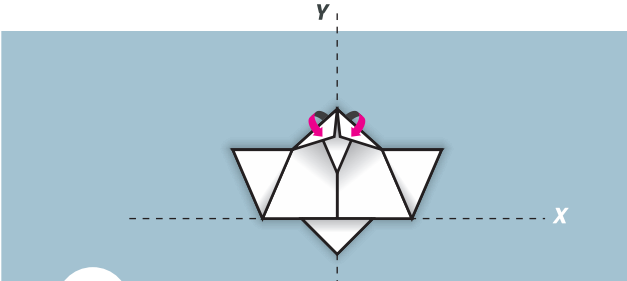

3
fold the bottom back so the points touch at the top

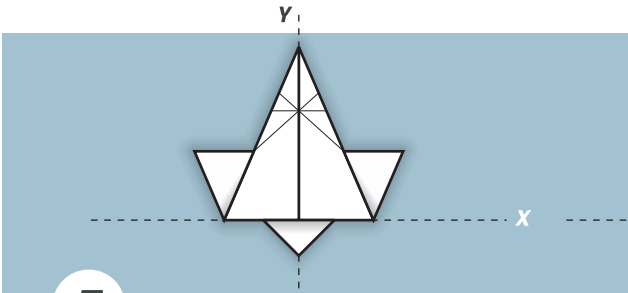

4
fold the back down again as in the picture

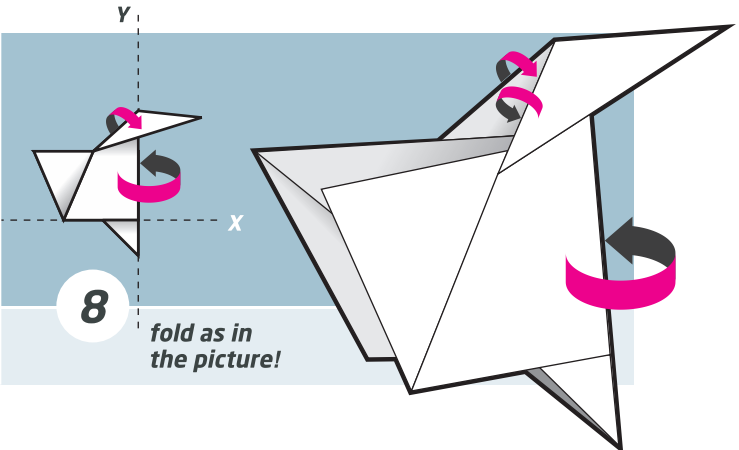

5
crease the top down along the blue line

6
create the diagonals forward

7
open the previous folds, forming the bird's head pattern

8
fold as in the picture!
